

1 Description

The `standalone` class allows the author to have smaller document files, which can be compiled independently. However, when included from a higher file, their preambles will be merged and added to that of the top file.

The `article` class is inherited so that `\section` commands work.

2 Used Packages

`standalone`, `lstlistings`

3 Preamble

```
\documentclass[class=article , crop=false]{standalone}

\usepackage{listings}
\usepackage{lipsum}
\thispagestyle{empty}
```

4 Example Code

```
\lipsum[1]
```

5 Example Result

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetur id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas.
